## MadeByKreative — Action Checklist

---

Plain-language to-do list for Kristol. Copy-paste the titles & tags straight into Etsy. Full reasoning & data is in `etsy-optimization.md`; the price calculator is `etsy-pricing-model.csv`.

.....

### ★ Start here — the 5 things that matter most

---

1. **Your shop sells out of its winners.** Patriotic / 4th-of-July rag garlands are ~70% of your yearly sales and sold out again this year. **Make more next year and price the big sizes higher.**
  2. **Your prices are already well-structured** — you charge more for bigger sizes, which is exactly right. Only a few small raises are worth making (below). *(An earlier draft of this file claimed your prices were "flat" — that was a glitch in our data import, now fixed. It also meant your website was accidentally charging the small-size price for every size; that's corrected too.)*
  3. **Your listings convert great (5.7%+).** The problem isn't your listings — it's **traffic** and **running out of stock**. Keep bestsellers in stock and get more eyes on them.
  4. **Pinterest is your best free traffic outside Etsy.** Instagram/Facebook do almost nothing. Pin more, and link some pins to your own website.
  5. **Turn on Etsy offers for abandoned carts & favorites** — you had 95 abandoned carts (~\$1,500) and 386 favorites this year. Those are buyers who almost bought.
- .....

### \$ Pricing — you're mostly already there

---

**Your sizes are already priced correctly on Etsy** (bigger costs more), so there's no big re-pricing job. Only these are worth changing:

## Worth doing

| Listing                                         | Change             | Why                                                                                                                                                |
|-------------------------------------------------|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Fabric Wristlet Keychain</b><br>(all colors) | <b>\$8 → \$12</b>  | At \$8 you barely clear costs after Etsy fees; similar handmade ones sell at \$11+. This is your one clearly-underpriced item.                     |
| <b>Birthday Bunting — Orange/Confetti</b>       | <b>\$15 → \$20</b> | It's a full 73" regular banner but priced below your <i>other</i> regular pennants (which are \$20). Optionally add a 48" size at <b>\$16</b> too. |
| <b>Birthday Bunting — Lime/Sprinkles</b>        | <b>\$15 → \$20</b> | Same as above.                                                                                                                                     |

## Optional small bumps (only if you like)

| Listing                                        | Size    | Change                                               |
|------------------------------------------------|---------|------------------------------------------------------|
| Fall <b>Bow</b> Garland                        | 70in    | \$25 → <b>\$30</b> ( <i>lots of hand-tied bows</i> ) |
| Easter / Valentine / St. Pat's regular bunting | 67–68in | \$20 → <b>\$22</b>                                   |
| Christmas / Gingerbread bunting                | 67in    | \$18 → <b>\$20</b>                                   |

## Leave these alone — already well-priced ✓

All your **rag garlands** (Halloween, Fall, Spring, St. Patrick's) are already tiered **\$15 / \$17.50 / \$20** by length, and the **mini bunting** is **\$10 / \$15**. Nothing to change.

*Note: an earlier draft of this list told you to re-price everything and flagged the St. Patrick's rag as "too cheap at \$12." That was wrong — it's actually \$12/\$15/\$17.50/\$20 like your other garlands. The mistake came from a bug in our website's price import (now fixed).*

## Etsy listing updates (copy-paste)

For each listing: replace the **Title**, then clear the tags and paste the **13 tags** (Etsy lets you add them one at a time — or paste comma-separated where supported). Titles lead with your most important keywords first, because that's what shoppers and Etsy's search see.

### Other Etsy to-dos

- ☐ **Add more photos.** Several listings have only 3 (Etsy allows 10). Add: a banner hung on a real mantel, a fabric close-up, and a "pick your size" graphic. More photos = more sales.
- ☐ **Add a short video** if you can (even 5 sec of the bunting swaying) — it boosts ranking.
- ☐ **Put every item in a section.** The Keychain, Christmas Bunting, and Gingerbread Bunting have no section. Make a **Christmas/Winter** section and an **Accessories/Gifts** section. *(Sections automatically become categories on your website too.)*
- ☐ **Restock the out-of-stock size** on the St. Patrick's Regular Bunting (48in).
- ☐ **Turn on Etsy offers:** abandoned-cart offer + "thank you for favoriting" offer.
- ☐ **Free shipping?** Etsy gives a search boost for free US shipping — consider building shipping into the prices above and switching listings to free shipping.

## When to do it (seasonal calendar)

| Season                          | Get listings ready & raise prices | Notes                                                             |
|---------------------------------|-----------------------------------|-------------------------------------------------------------------|
| Fall / Halloween                | Aug – Sep                         | You already have these — just update price + title/tags now       |
| Christmas / Holiday             | Oct – Nov                         | Add the two Christmas buntings to a section                       |
| Valentine's                     | late Dec – Jan                    |                                                                   |
| St. Patrick's / Spring / Easter | Feb – Mar                         |                                                                   |
| Patriotic / 4th of July<br>★    | Apr – May                         | Your #1 earner — <b>make extra stock</b> , price big sizes higher |

## Your website (madebycreative.vercel.app)

Already done for you (no action needed): fixed the garbled apostrophes ("St. Patrick's"), and added search-friendly titles/descriptions for Google on all 16 products.

Worth doing when ready:

- ☐ Set your **real shipping rate** in the admin Settings (it's a \$5.50 placeholder now).
- ☐ Put a **card in every Etsy package** with your website link + a discount code — moving repeat buyers to your own site means you keep more of each sale.
